

Lucas Power Fishing Tackle Set Titanium Tip 180cm Octopus Casting Saltwater Boat Rods

Our Product Introduction

for more products please visit us on fishing-set.com

Basic Information

- Place of Origin: Shandong, China
- Brand Name: Sunrise
- Certification: ISO
- Model Number: 501
- Minimum Order Quantity: 500 Pieces
- Price: 29 USD/Piece
- Packaging Details: Negotiated / Standard Package
- Delivery Time: Negotiated / 20 Working Days After Payment
- Payment Terms: T/T,
- Supply Ability: 20000 Pieces/Month

Product Specification

- Product Name: Squid Boat Fishing Rod
- Material: Carbon
- Top Diameter: 1.05mm
- Hardness: Hard
- Category: Lure Rod, Boat/Raft Rod, Saltwater Fishing Rod
- Fishing Rods Type: Casting Rods, Boat Rods
- Action: Fast Action
- Position: STREAM, River, Lake, Ocean Beach Fishing, Ocean Boat Fishing, Ocean Rock Fishing, Reservoir Pond
- Highlight: Lucas Power Fishing Tackle Set, Fishing Tackle Set Titanium Tip 180cm, 180cm Octopus Casting Saltwater Boat Rods

Product Description

Lucas Power Titanium Tip 180cm Fast Action Octopus Casting Boat Fishing Rods

A titanium tip is a type of guide or guide frame that is made from titanium or incorporates titanium components. This material offers several advantages in fishing rod design:

Strength and Durability: Titanium is known for its exceptional strength-to-weight ratio. Titanium tips are incredibly strong and resistant to bending or breaking, making them highly durable. They can withstand the stress and pressure that can occur during the casting and fighting of fish.

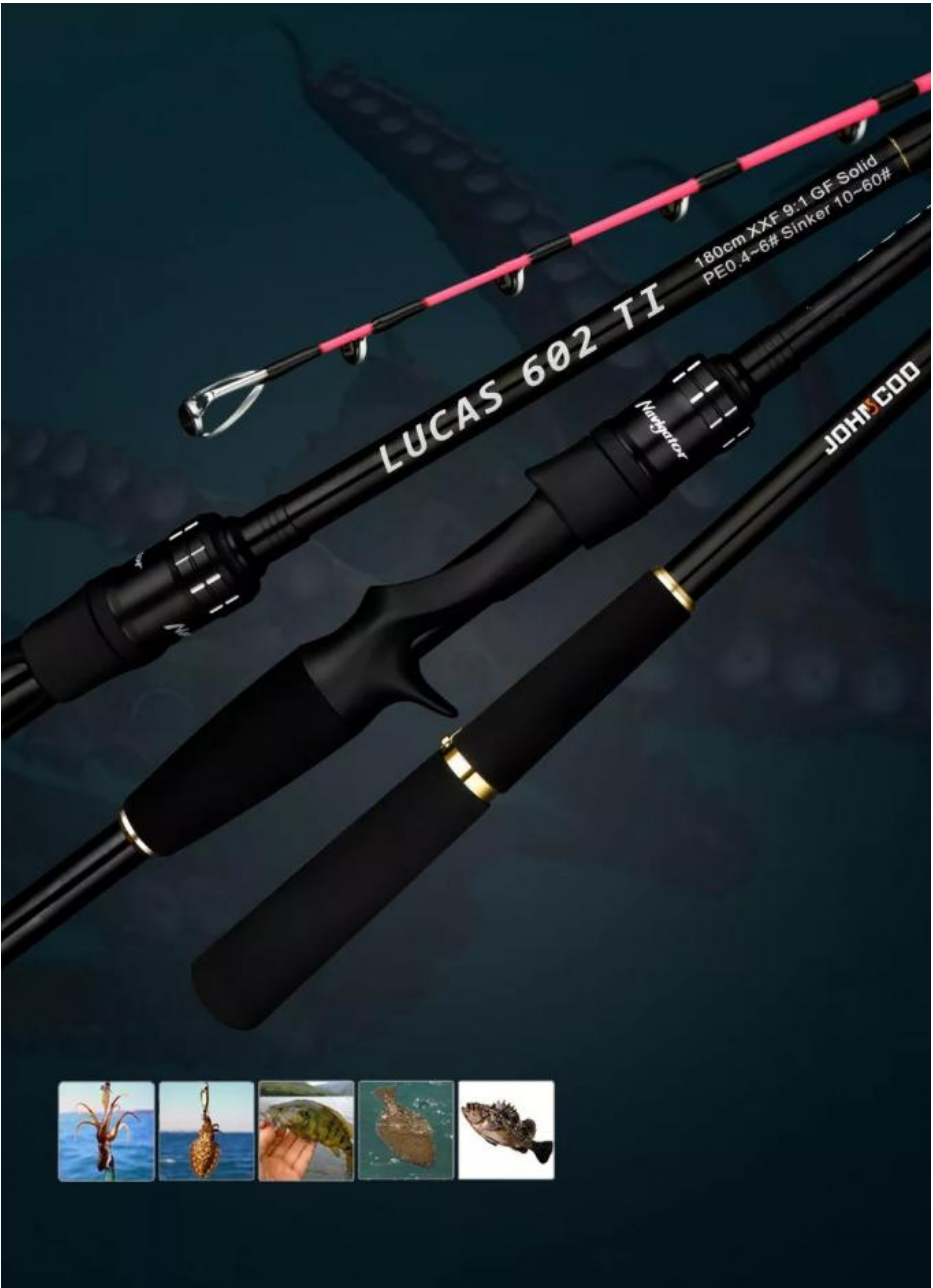

Corrosion Resistance: Titanium is highly corrosion-resistant, which is especially important in saltwater fishing environments where rods are exposed to saltwater, which can cause other metals to corrode over time. A titanium tip is less likely to corrode or rust compared to conventional materials like stainless steel.

Lightweight: Despite its strength, titanium is relatively lightweight. This means that adding a titanium tip to a fishing rod doesn't significantly increase the overall weight of the rod, making it easier to handle and cast.

Sensitivity: Titanium tips can enhance the sensitivity of a fishing rod. The material's stiffness allows for better transmission of vibrations, which is important for detecting subtle movements, bites, or strikes from fish.

Smooth Line Flow: Titanium guides or tips often have a smooth surface finish, reducing friction and allowing the fishing line to flow smoothly during casting and retrieval. This can result in longer casts and reduced wear on the fishing line.

Reduced Heat Buildup: Titanium has excellent heat dissipation properties. When a fishing line runs through titanium guides or touches a titanium tip, there is less risk of heat buildup, which can be a concern when using braided lines or lines with high-speed reels.

Key Attributes

Place of Origin	Shandong, China
Ships From	China

Top Diameter	1.05mm
Hardness	Hard
Position	STREAM, River, Lake, Ocean Beach Fishing, Ocean Boat Fishing, Ocean Rock Fshing, Reservoir Pond
Category	Lure Rod, Boat/Raft Rod, Saltwater fishing rod
Fishing Rods Type	Casting rods, Boat rods
Brand Name	CUSTOMISED
Model Number	501
Material	Carbon
Tip	Titanium Tip
Action	Fast Action

Packaging and Delivery

Selling Units:	Single item
Single package size:	150X10X10 cm
Single gross weight:	3.000 kg

**Light weight, strong body,
the lucas rod is constructed
with 30T carbon, really fast,
action 9:1, the top part is
TITANIUM Material,
not easy broken.**

Titanium tips can be found in various types of fishing rods, including spinning rods, casting rods, and fly rods. They are particularly popular in high-end fishing rods designed for specific applications, such as saltwater fishing, heavy-duty freshwater fishing, or situations where sensitivity and casting performance are crucial.

While titanium tips offer several benefits, they can also be more expensive than traditional guide materials like stainless steel or ceramic. Anglers often choose fishing rods with titanium tips when they are looking for top-tier performance and are willing to invest in a high-quality rod.
